***“The people I work with,
we work really well together.”***

Who is it?	35 years old, hired 10 years ago, after graduating with 4-year Nursing Degree.
Goals	Helping patients and making a difference. Would like to achieve family-life balance (tough goal).
Challenges	Sometimes, work is just work, there is no spark. The team is great but there is too much to do. It drains a lot of energy.
Values	Strong empathy towards those in need. Enjoys the interactions with other members of the team.
Attitude toward Training	Will comply if it's mandatory. Likes to learn when there is a dedicated time and place. Otherwise it won't happen.
